Shiheiris.

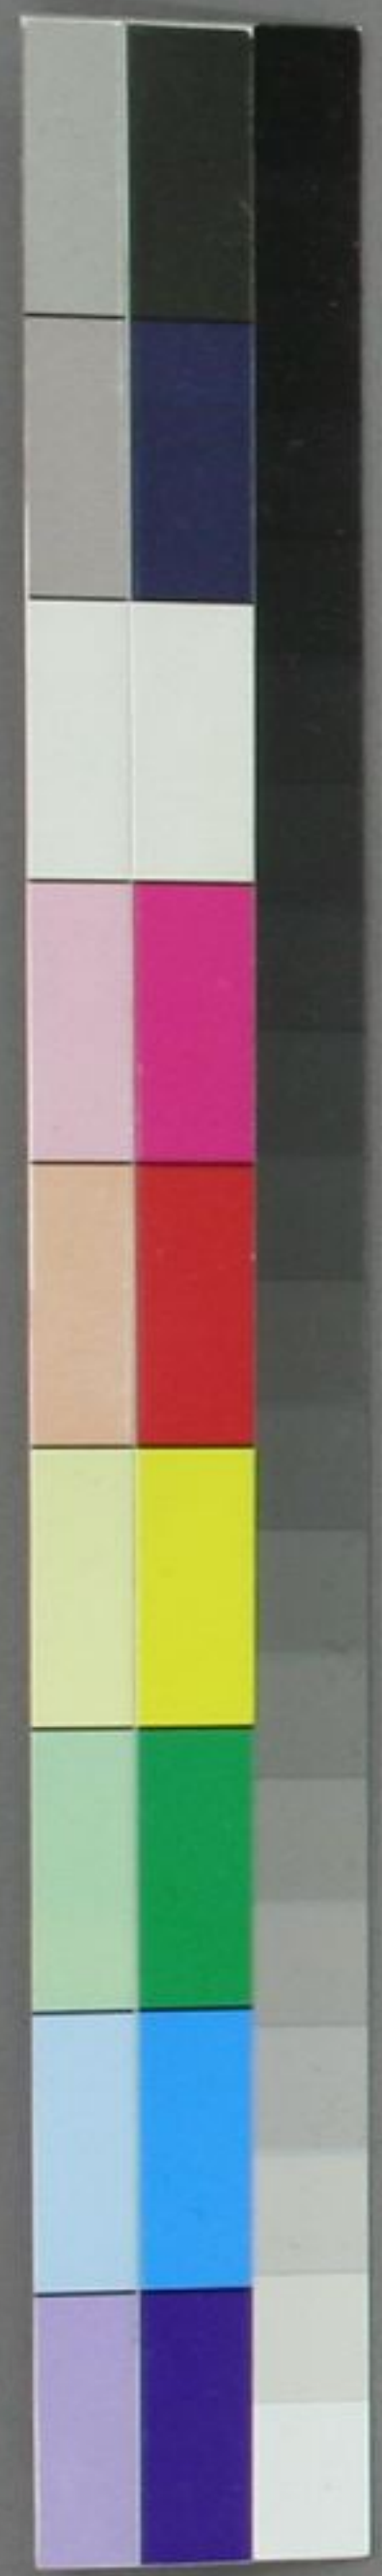

His Excellency
Okuma Shigenobu
Minister of Finance

Sir

I have the honor to acknowledge the receipt of your letter of the 5th referring to Mr. Robinson's Experiments on Torpedoes and as, kind me, to render him assistance; and should have replied at once had not indisposition prevented me.

As I am happy at all times to give the Imperial Government, the benefit of my chemical skill, so upon this occasion I will advise to the best of my knowledge on that subject.

As I have many conveniences in my office in the Shiheiris,
as

as also the assistance, when needed,
of some young chemical students I
would much prefer being left at
liberty as to where I may make
the needed preparations.

And I make this request, partly,
so that I may not be mixed up
with other parts of the manufacture,
and because, perhaps owing to me-
chanical imperfections of construction,
these Torpedo Experiments, should here,
after end in failure (a probable oc-
currence) I am anxious to prove
that such failure was not attributable
to the chemical manufacture which may
be previously shown, before the boats
are filled, by making trials within
this inclosure.

I have addressed a note
to Mr. Boynton, requesting him to call
upon me at my office.

I remain Sir

Very respectfully

Feb. 4. 1845
