Tokio Oct 18th 1874

Dear Sir
I am now ready to
place the machinery in a Steam Launch,
and should prefer you to have sent to
the Yokohama Foundry, the Steam Launch
which Mr Terry of Yokoska, told me
was having repairs done ^{upon it} at the time
I visited that place.

In order to pass the bridges in
Yokohama it will be necessary to
have the Masts taken out, and this
had better be done at Yokoska before
sending to Yokohama

Your obt servant
E. S. Poynter
