

A FAMOUS PRODUCT

FO

TAKADA, ECHIGO  
JAPAN.

The nutrimental barley-jelly.

This jelly is a very nutrimental substance made from barley according to the hereditary method of the soil, through the present scientific arts.

The jelly is very pure in its character, and has a very delicate taste.

Moreover, it never gives us any hurt at all even though we eat it together with any other food because we make it nutritive as much as we can, disregarding the expense required in its making.

Besides, the jelly would thru neither its taste nor its color though we may preserve it for a long time.

The jelly, indeed, is the best and most indispensable food in all the season.
