Office of B Richardson & Son
Silk Brokers
No 61 Reade Street

P.O. Box 5707.

New York April 21st 1874

Hon. T. Tomita

Japanese Consulate N. Y.

Dear Sir

The S.S. Great Republic which arrived at San Francisco March 19th brought 22 Bales of Japan raw silk, and the S.S. Alaska which arrived at San Francisco April 3rd brought 17 Bales of Japan raw silk, these last have not yet arrived in New York.

The 22 Bales ex Great Republic are of Ossio silk, filature reel, it is of good quality very clean, even, and of a good size, superior to many European raw silks, and almost equal to the best.

All that is needed to restore the trade in Japan raw silk with this country, is to send such silk as this, improving it as practice will render easy, and a matter of course.

I send you herewith a sample skein of the silk which you will see is put up as we recommended in our former report to you, twisted and one end of the skein put through the other.

In our former report we spoke of the - adulteration of China silk. we now send you two spools of sewing silk No 1. and No 2. the first is made of adulterated silk and you see the effect in the color, it ought to be the same color and have the same appearance as No 2.

We are,

Yours Faithfully,

Signed - B. Richardson & Son
