of George Mickoma's Post
20th October 1874

Urasa Sama
Sangi and Muratsugu

I have the honour to bring under your notice the fact that the Usshin Shinjishi as the Official Organ appointed by the Honorable Board of Saibu to publish, all the Official Notifications, Rules, Laws and Reports of His Imperial Majesty's Council of State, has also been favoured with the copies of the Murasho official notices. But for some reason, on my reporter going to Murasho for them lately, he has told that in future they would not be supplied. I would respectfully request of you the favour of issuing an order that they be supplied to the Usshin Shinjishi as usual; or, if it be too great a trouble to write them out, my reporter will gladly copy them. No charge is made by the Usshin Shinjishi for publishing them, and they are most important to the public. I most sincerely hope therefore that you will allow them to have the advantage of our large circulation.

I have the honor to be
Sir
Your most obedient servant

J. R. Black
