

Tokio 30th August.
1874.

E. M. Hirai. Esqr.
Daijokwan -

Dear Sir -

Yesterday I received your letter and plans of S. S. Nicolai's Machinery for which many thanks; I shall return them in a day or two. -

I herewith beg to submit my Report on the S. S. Luzon after the trial trip with some calculations of Costs &c - to your consideration - and hoping you will find this satisfactory; and should any further details be required, I shall be glad to supply them - at your wish. -

I may also add, that the Luzon will be a most desirable and profitable steamer for the Japanese Trade, when altered as I have recommended. -

I am, Dear Sir -

Yours faithfully
Frederick Krebs -
