

Manila 29<sup>th</sup> Jan'y 1894

Dear Count,

I duly received your letter and am glad to hear from them that plants I had sent few things have had reached you in good condition and that they had given you satisfaction -

Very many thanks for your kind present of pair of porcelain jars, they are very pretty & my wife appreciates them very much -

By last trip of the Itogo have sent two plants of Phalaris

Stuartiana which I hope will reach you in condition - Plant I have sent you so far have all been from my own collection & which I could spare - You asked for *Ganda Batemanii* & some others which I am sorry I have not got, but I have asked some friends in the province to get some for me by next trip of the steamer I hope to be able to send you a few - with best regards & again thanking you for your kind present, I remain

Yours sincerely  
John Macfarlane

The Honorable  
Count Okuma
