Mr. Okuma

The financial condition
of Hungary - the most important
country of the Austrian Empire -
is exceedingly bad. The deficit
for the year 1874 will probably
reach \$75,000,000. Without
a new loan can be negotiated
the Government will be bankrupt.
It has been found impossible
to collect newly imposed taxes -
as the old taxes were so ex-
cessively oppressive

Very Respectfully
Geo. T. Williams
